

JUMPSTART3

JumpStart3 wants to help you reach kids and families during this season of social distancing. Church-At-Home is the new normal for the next few weeks. Here are some guidelines for how you can make our songs and worship resources available to those you serve:

PLEASE READ THIS ENTIRE DOCUMENT AND KNOW WE ARE PRAYING FOR YOUR MINISTRY IN THIS SEASON OF NEW OPPORTUNITIES

- **Build an audio playlist of worship songs** that you use in your ministry. With kids at home for an extended time, fear, stress, and the unknown will be impacting family's lives. I promise that familiar worship music can help.

- 1) Use the site [Soundsgood.co](https://www.soundsgood.co) to build a playlist of your recently used worship songs.
- 2) Push the list to all the different platforms like Apple Music, Spotify, YouTube Music and more.
- 3) Share the link to the platform playlists you have made with your families.
- 4) Family use accounts will cover licenses for the music being played for personal use. This is a FREE resource to your church to put music in the hands of your families.

- **Use JumpStart3 audio &/or video in a streaming church service for kids.**

JumpStart3 is granting a 60 day waiver of streaming licenses for churches and children's ministries. This waiver begins on March 18th and ends on May 17, 2020.

- 1) The song use must be for streaming and NOT for download.
 - 2) You have temporary permission to do the following: - Use song audio &/or video inside of a kid's church or service video
 - Amount of JumpStart3 music should be 33 percent or less of the video
 - Text for JumpStart3 Songs must be at the beginning & or end:
"Fill in Song Title Here" by JumpStart3
- Social Follow: [@JumpStart3](https://twitter.com/JumpStart3)
[JumpStart3.com](https://www.JumpStart3.com)

- 3) - This is a great time to make sure your church has the Streaming Add-On license from CCLI. This is in addition to your basic CCLI license. With this Streaming Add-On license, you have songwriter rights to stream over 300,000 worship songs. As you report the songs you use in your streamed kid's church lessons or services to CCLI, this helps songwriters get paid for your usage of their songs.
 - If you don't have the Streaming Add-On license from CCLI, you will need to contact the song publisher for each song you want to use. That can be very time consuming and we suggest the

CCLI add-on license.

COPYRIGHT REMINDER: You do not have permission to upload our song videos alone to any App, Vimeo, YouTube, Facebook, Website, etc. However, there are systems in place to cover your families watching the videos for personal use from YouTube so linking to those is a great option. Thank you for respecting copyrights, supporting artists and creators and using the options above so that TOGETHER we can impact many children and parents in the coming weeks.

Although we are granting the above waiver for this season some of you have asked how you can give and support our ministry in these times. paypal.me/jumpstart3

You can make a donation online at paypal.me/jumpstart3 . It is truly our joy to be a blessing to your Kidmin and the families you are reaching. We look forward to that continuing in the days to come. Let's continue to make worship that makes scripture stick!!!

Resources for families to use at home:

We have created a line of family resources so families can have access to our unique music and motions to memorize and disciple at home. ***These must be purchased by each family and not shared.*** (a good way to explain is each family has to buy a TV. Songs and videos are property just the same as the tv you watch them on)

We have greatly discounted these videos and songs and with your help we hope that many families will be able to use this time to learn just how easy and critical it can be to put God's word at the center of their days using scripture songs.

Please send your families an email with a link to <https://jumpstart3.com/family-resources/>

Our resources are discounted at 50% off and they are all digital MP3 audio files and MP4 videos files and instantly downloadable and they also come with traditional CD and DVD's at no extra cost! No matter what technology your families have our resources will work.
